

Session 1 10.00am - 10.45am

Option 1

Fast Track Screeds

- Provides guidance of the specification of screeds
- Understanding how material types differ in performance
- Awareness of current European and British Standard Compliance
- Aesthetic qualities of screed materials

Delivered by Mapei

Option 2

Tiling in Wetrooms

- Provides guidance of the specification of waterproofing systems
- Understanding performance of different types of systems
- Awareness of correct installation procedures

Delivered by Schluter

Option 3

Slip Resistance and Sustainability of tiles

- Provides knowledge of different test methods
- Select appropriate approaches when specifying slip resistant floor coverings
- Demonstrates awareness of sustainable slip resistance

Delivered by Armatile and Dorset Woolliscroft

Session 2 11.00am - 11.45am

Option 1

Armatile Design and Manufacturing Facility Tour

- Explains the Design and Manufacturing Process
- Provides physical demonstrations of facility capabilities and procedures
- Presents successful design and manufacturing projects

Delivered by Armatile

Option 2

Ceramic Printing Solutions

- Presents the use of the latest digital technology in tile design and installations
- Understanding how material types differ in performance
- Shows successful projects

Delivered by Tiled Space

Option 3

Large Format Tiles and How to Avoid Ceramic Tile Failures

- Provides awareness of the trend for large format tiles
- Discuss the importance of appropriate installation methods
- Explain common ceramic tiling failures

Delivered by Armatile and Mapei

Session 3 12.00pm - 12.45pm

Option 1

Armatile Design and Manufacturing Facility Tour

- Explains the Design and Manufacturing Process
- Provides physical demonstrations of facility capabilities and procedures
- Presents successful design and manufacturing projects

Delivered by Armatile

Option 2

Tile Internal Movement Joints Why, What and Where?

- Provides guidance on technical requirement of stress relieving joints
- Understanding of application techniques
- Awareness of current British Standard Compliance

Delivered by Schluter

Option 3

Systems for Effective Waterproofing

- Provides guidance to designers enabling successful specification
- Explains how systems work and how to choose an appropriate system
- Understand common pitfalls and why they occur

Delivered by Mapei
